

POST-SHOW RELEASE

February 19, 2018

On February 6–9, 2018 Aquatherm Moscow, the 22nd International exhibition for domestic and industrial heating, water supply, engineering and plumbing systems, air conditioning, ventilation and equipment for pools, saunas and spas, was successfully held in Moscow, Russia.

Aquatherm Moscow 2018 Results:

- **27 517** unique visitors;
- **812** exhibitors from **34** countries;
- **38 000** sqm – total exhibition space;
- **35** types of heating, water supply and pool equipment;
- **241** new participants;
- **697** delegates of business programme;
- **AirVent** – new successful event for VAC specialists;
- **6** conferences, Symposium by BDH and exhibitor seminars in the frames of business programme.

Aquatherm Moscow 2018 has become the most impressive show in the brand's history: a record-breaking number of exhibitors took part in the exhibition this year. It was **812 companies from 34 countries** that once again made Aquatherm Moscow the biggest meeting point for the HVAC & pool professionals in Russia, CIS countries and Eastern Europe.

The show's **38 000 sqm** exposition displayed the wide range of equipment for residential, commercial and industrial facilities in the following sectors:

- Heating equipment;
- Water supply equipment;
- Pipes. Fittings. Valves;
- Pools and equipment for pools and saunas;
- Control and measuring equipment. Automation systems;
- Ventilation and air conditioning equipment;
- Engineering tools;
- Heating, water supply and climate control systems design and installation services.

Showing a great market potential, the exposition was equally represented both by international producers and domestic suppliers and manufacturers including the **leading market players**, such as: ACV, Agpipe, Agru, Apator Metra, Aquafor, Aquamaster, Aquapolis, Aquario, Alterplast, Aniplast, Armacell, Baxi, Berke Plastik, Ballu, Belimo, Bestway, Bitherm, Bosch / Buderus, BRINKO, BWT, Chemoform / Dinotec, Craft, De Dietrich,

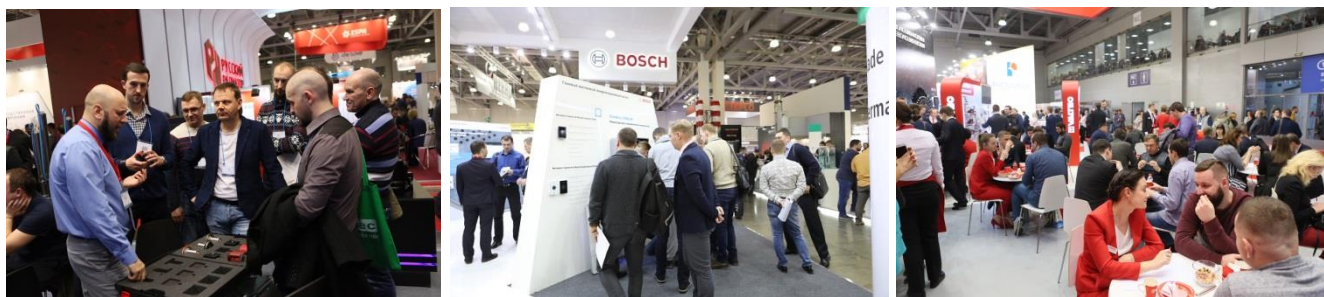

Organisers:

Dizayn, Duim, Ego Engineering, Emec, Erbach, Espa, EVAN, Fondital, Forte, Frisquet, FV-Plast, Genebre, General Fittings, Grando, Grünbeck, Guray Makina, Heisskraft, Herz Armaturen, Hogart, Hoheywell, Itelma, IMI International, K-Flex, Kalde, Kiturami, Kofulso, Laboratoriya Otopleniya, Markopool, Meibes, MRU, Navien, Only, Oventrop, Pahlen, Polyplastik, Procopi, Profactor, Qundis, Raifil, Rehau, Reliance Worldwide Corporation, Rems, Rifar, Rinnai, Rols Isomarket, Rosturplast, Rothenberger, Rusklimat, Russkiy Radiator, SANHA, San-House, Santechkomplekt, SFA Group, Schiedel, Siemens, SIT Group, Speck Pumpen, Syr Armaturen, Tece, Terem, Termoros, Testo, Topol-Eco, Unipump, Vaillant, VALF Rus, Valtec, Valvosanitaria Bugatti, Veza, Viega, Viessmann, VIR, Virax, Wavin Ekoplastic, Weishaupt, Wilo, Wirquin, and many others.

New brands bringing new solutions

In 2018, **241 exhibitors took part in the show for the first time**. The new companies from Russia, Belorussia, Chile, China, Croatia, Czech Republic, Finland, France, Germany, India, Iran, Italy, Japan, Kazakhstan, The Netherlands, Slovenia, South Korea, Spain, Switzerland, Turkey, UK, and USA fulfilled the exposition with over **150 products**. Among the companies that met the Russian customers for the first time were the participants of the new country pavilions: the **Indian** (30 companies supported by FIEO, Association of Indian Export Organisations) and **Japanese** (6 companies supported by ROTOBO, Japan Association for Trade with Russia and NIS) expositions.

How does it feel for the new companies at Aquatherm?

"We can say that we are very satisfied with the preliminary results of Aquatherm Moscow. Our main goal was to introduce into the Russian market a true alternative for the electrical heating sector and we can say that this message had been clearly shown to the people who came to our stand and shared their opinion about our efficient electric heating system. Not only had we visitors from Moscow area but also from the majority of the CIS countries. We have had a great feedback of installers, wholesalers, importers, contractors and also end users. Now the great results are yet to come!"

Wynes Díaz, Export Manager, Rointe (Spain)

AirVent: Exploring new product and exhibition areas

On February 6–9, the show hosted an absolutely new event – **International ventilation congress AirVent** specially dedicated to the ventilation market. During 4 exhibition days the AirVent hall was a platform where trends and innovations were revealed. **244** specialists attended the Congress to learn about the industry trends, regulations and novelties.

On February 6, the Congress was opened by Panel session “**Ventilation equipment market in the countries of the Eurasian Economic Union: a territory of equal opportunities, effective custom duty regulation and up-to-date standards**”. The session participants learned about the current regulations and standards from the government representatives and market analysts, including Sergey Shatirov, Committee of the Council of the Russian Federation on Economic Policy; Sergey Pugachev, Committee on technical regulation, standardization and product quality, Chamber of Industry and Trade of the Russian Federation; Georgy Litvinchuk, Litvinchuk Marketing; Natalya Kozhina, Science and Technical council for development of the construction materials industry, Ministry of Industry and Trade (Minpromtorg, Russia); Nikolay Krapivin, National Union of Constructors; and Alexander Kvashnin, Termoconvent 2018.

The second Congress day was dedicated to the actual **technological expertise** provided by the well-known ventilation market players including: Wolf Energy Systems, Siemens, VEZA, Ventzaschita, Company MEL, Tion Smart Micro Climate, Vozdukhotechnika, Blagovest; and industry experts – C.O.K. Magazine and Litvinchuk Marketing.

On February 8, the show visitors took part in the **Ballu Airmaster programme presentation** and a quiz performed by Rusklimat. The final Congress day was dedicated to **presentations of ventilation equipment and solutions** by Craft, Gripple, Dva Oblaka, and Turkov.

Classical Business Programme at Aquatherm Moscow extended boundaries

On February 6 the specialists learned about the prospects of using heat pumps as alternative energy resource within the 4th specialised scientific and practical conference on heat pumps “**Heat pumps. Promotion and implementation in Russia and worldwide**” (supported by C.O.K. magazine). The delegates got informed about the development directions and successful cases of the heat pumps’ application in Russia – both in municipal energy supply systems and in private houses. The event was held with participation of government representatives, such as Dmitry Airapetyants, Deputy Minister of Energy of Moscow region; Oleg Belestilin, Energy Conservation Department of the Ministry of Energy of Moscow region; and Dmitry Khomchenko, Department of Economics of the Analytical Center under the Government of the Russian Federation. Ekaterina Malitskaya, VEB Finance, highlighted the financial tools of modernization of municipal heating systems with the use of heat pumps.

New materials, construction and finishing technologies were the main topics of the conference **“Pools today”** traditionally accompanied by the Pool of the Year Award (supported by Banbas magazine and www.banbas.ru).

On February 7 the specialists took part in the conference **“Pools and spas, stadiums, ice arenas. Water supply, disposal and climate control systems”** (supported by NP AVOK). The event was dedicated to the currently actual topic in Russia – equipment of sport facilities. Water supply and disposal, fire-protection water supply systems as well as technologies and equipment for providing the requirements for the sports facilities’ microclimate were comprehensively analysed – starting from the legal regulation to effective and state-of-art technologies.

Conference **“Heating and Water Supply: Energy-Efficiency, Comfort and Safety”** (supported by “Aqua-Therm” magazine) allowed the show visitors to get the updates and overview of the technologies and equipment that are available in the Russian market, and provide energy- and resources-efficiency: control and measuring tools, boiler houses, thermal insulation, engineering systems, and boilers.

The 3rd Symposium **“Efficient Heating Systems: Developments and Prospects”** by BDH (Federal Industrial Association of Germany for House, Energy and Environmental Technology) was a meeting point for the professionals were the first to learn about the novelties of the world-known HVAC brands, including Wilo, Viessmann, Vaillant, Rehau, and Oventrop.

On February 8, two new associations supporting the show – China National Hardware Association (CNHA) and Shunde Gas Appliances Chamber of Commerce (SGACC) – organised a product release conference **“Technologies for gas wall-mounted boilers”** that attracted energy-supply companies, equipment producers and installers.

"Wilo took part in Aquatherm Moscow 2018 to present the new "smart" pumps to the Russian customers and a full range (more than 40 items) of domestic pumping equipment, including products of the Wilo plant in Russia. According to the big number of contacts that we've got this year, the exhibition was successful for us. We are satisfied with the qualified audience and organisational level of the show, its media promotion and advertising campaign."

Aleksey Bykov, Marketing Manager, Wilo Rus (Germany & Russia)

"If you evaluate the market for the revival that reigned on Aquatherm Moscow, the market has jerked up. Stands were really inspiring by their creativity, and positive and active exhibitors. We give a special respect to the organisers for a lot of new ideas and a special project – the AirVent Congress. Let the successful start will become a guarantee of success and achievements of the most ambitious goals!"

Mina Khachatryan, Marketing Director, Rusklimat (Russia)

"Aquatherm Moscow is a full-fledged professional platform for the industry. Frankly speaking we were pleased not only by the number of visitors, but also the diversity, both in the context of related industries, and geographical presence. Our company, without hesitation, decided to increase its presence at the next exhibition twice."

Yuri Yakupov, Marketing Manager, WATER TECHNOLOGY (Russia)

"Jeremias is the Aquatherm's regular participant. Due to the scale and significance of this event in the Russian market, we consider participation in the show as one of our priorities. Undoubtedly, this exhibition has a strong reputational influence, but at the same time it gives an opportunity to meet with partners, including professionals from the Russian regions and CIS countries, as well as to demonstrate new products and determine the vector for business development."

Sergey Pronin, Marketing Director, Jeremias Rus (Germany & Russia)

The organisers are grateful to the international organizations and associations for their strong support:

- Federal Ministry for Economic Affairs and Energy, Germany
- Federal Industrial Association of Germany for House, Energy and Environmental Technology (BDH)
