Tools	4 828	27
Pools, Saunas, Spas	3 617	20
Passive House	2 047	11

"Despite the difficult external situation, the exhibition is being held successfully, there is a great excitement of new partners and existing partners at our stand. This is a good platform for meetings with existing partners, there is no better place to discuss current issues and plans for the future. Conversion from the received contacts takes place, because the exhibition is visited by heads of companies from completely different distribution channels, and this is a great opportunity to gain experience, communication and new contacts. The audience at the exhibition is wide, ranging from large wholesale companies, store owners, retail, ending with end consumers and the geography is quite wide"

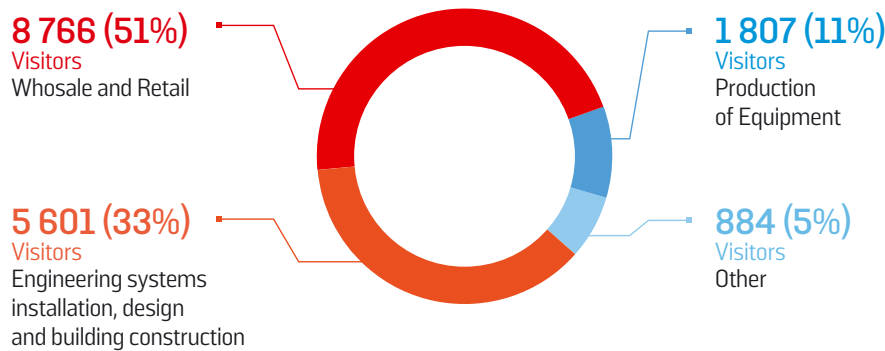

Vasily Shumakov,
Commercial Director,
Daesung Rus

Participation in the Aquatherm Moscow exhibition is an effective way to increase your sales volumes

Visitor Profile

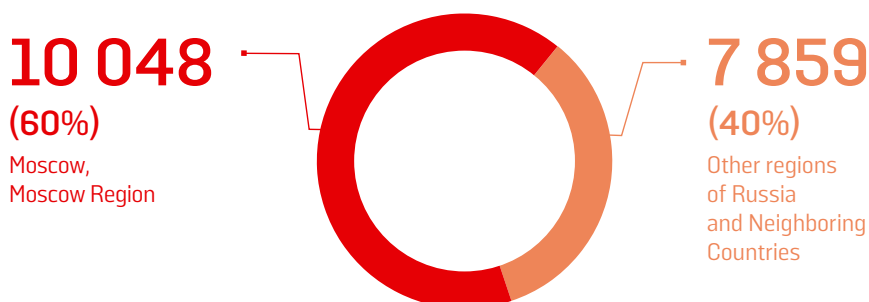

"We have been participating in Aquatherm Moscow since 2006. Contacts made there are converted into profit for us. There are a lot of visitors who want to communicate with market professionals and get maximum useful information from the original source. We definitely plan to participate and implement an exclusive participation format next year"

Oleg Bragin,
Head of Marketing Department,
Aquario

Participation in Aquatherm Moscow will allow your company to extend its sales territory

Geography of Visitors

"The company participates in the exhibition not for the first time. The key goal of participation is to show the products we produce, meet potential partners and communicate with current ones. The exhibition has a key role, because a huge number of manufacturers and novelties are presented here. For every person working in engineering plumbing, this is the key event of the year. From the very morning, our managers made new acquaintances, new partners"

Ivan Petrakovskiy,
Business Coach, RTP
